 README.md 

Horiseon Social Solution Services

Description

Horison website is used for customers attraction and retention. It shows how the company can use the search engine optimization, online reputation management, and social media marketing in order to increase its revenue.

Installation

No need to install anything for to use this website. You can open any web browser and go to this link:
<https://sivanishanthar.github.io/Horiseon-Optimiz-Manage-Market/>

Usage

Navigate to the page

See below image for the Horiseon Social Solution Services webpage

Search Engine Optimization

The dominance of mobile internet use means that users are searching for the right business as they travel, shop, or sit on their couch at home. Search Engine Optimization (SEO) allows you to increase your visibility and find the right customers for your business.

Online Reputation Management

The web is full of opinions, and some of these can be negative. Social media allows anyone with an internet connection to say whatever they want about your business. Online Reputation Management gives you the control over what potential customers see when they search for your business.

Social Media Marketing

Social media continues to have a sizable influence on buying habits. Social media marketing helps you determine which platforms are suited to your brand, using analytics to find the right markets and

Lead Generation

Inbound strategies for lead generation require less work for your business, bringing customers directly to your website.

Brand Awareness

Users find your business through paid and organic searches, increasing the search ranking and visibility for your business.

Cost Management

increase your lead generation.

As the search ranking for your business increases, your advertising costs decrease, and you no longer need to advertise your page.
